

### SAFETY DATA SHEET

### Xterm Defense Against Termites Termite Bait

According to Preparation of Safety Data Sheets for Hazardous Chemicals Code of Practice, February 2016

SECTION 1: Identification: Product identifier and chemical identity		
Product identifier		
Product name	Xterm Defense Against Termites Termite Bait	
Relevant identified uses of the	substance or mixture and uses advised against	
Application	Termite Bait	
Uses advised against	No specific uses advised against are identified.	
Details of the supplier of the s	afety data sheet	
Supplier	www.sumitomo-chem.com.au Sumitomo Chemical Australia Pty Ltd Level 5, 51 Rawson Street, EPPING, NSW 2121 (02) 8752 9000 (02) 8752 9099 Reception@sumitomo-chem.com.au	
Emergency telephone number		
Emergency telephone	1800 024 973 (Australia) 0800 243 6225 (New Zealand)	
SECTION 2: Hazard(s) identification		
Classification of the substance or mixture		
Physical hazards	Not Classified	
Health hazards	Not Classified	
Environmental hazards	Aquatic Acute 1 - H400	
Label elements Pictogram		
Signal word	Warning	
Hazard statements	H400 Very toxic to aquatic life.	
Precautionary statements	P273 Avoid release to the environment. P391 Collect spillage. P501 Dispose of contents/ container in accordance with national regulations.	
Other hazards		

This product does not contain any substances classified as PBT or vPvB.

SECTION 3: Composition and information on ingredients

### Mixtures

Other ingredients deemed not to be hazardous g	
Bistrifluron	1.0%
CAS number: 201593-84-2	

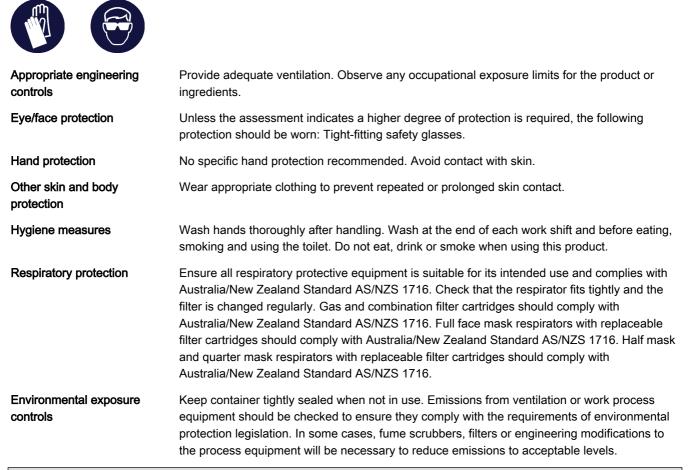

### **SECTION 4: First aid measures**

Description of first aid measures	
General information	If poisoning occurs, contact a doctor or Poisons Information Centre (Phone Australia 131126; New Zealand 0800 764 766), and follow the advice given. Show this Safety Data Sheet to a doctor.
Inhalation	Move affected person to fresh air and keep warm and at rest in a position comfortable for breathing. Loosen tight clothing such as collar, tie or belt. Get medical attention if symptoms are severe or persist.
Ingestion	Rinse mouth thoroughly with water. Get medical advice/attention if you feel unwell. Do not induce vomiting unless under the direction of medical personnel.
Skin Contact	Rinse with water.
Eye contact	Rinse with water. Get medical attention if any discomfort continues.
Protection of first aiders	First aid personnel should wear appropriate protective equipment during any rescue.
Most important symptoms and effects, both acute and delayed	
General information	The severity of the symptoms described will vary dependent on the concentration and the length of exposure.
Inhalation	No specific symptoms known.
Ingestion	No specific symptoms known.
Skin contact	Prolonged contact may cause dryness of the skin.
Eye contact	No specific symptoms known. May be slightly irritating to eyes.
Indication of any immediate m	edical attention and special treatment needed
Notes for the doctor	Treat symptomatically.
SECTION 5: Firefighting measurements	sures
Extinguishing media	
Suitable extinguishing media	The product is not flammable. Extinguish with alcohol-resistant foam, carbon dioxide, dry powder or water fog. Use fire-extinguishing media suitable for the surrounding fire.
Unsuitable extinguishing media	Do not use water jet as an extinguisher, as this will spread the fire.
Special hazards arising from t	he substance or mixture
Specific hazards	None known.
Hazardous combustion products	Thermal decomposition or combustion products may include the following substances: Harmful gases or vapours.

Advice for firefighters	
Protective actions during firefighting	Avoid breathing fire gases or vapours. Evacuate area. Cool containers exposed to heat with water spray and remove them from the fire area if it can be done without risk. Cool containers exposed to flames with water until well after the fire is out. Avoid discharge to the aquatic environment. Control run-off water by containing and keeping it out of sewers and watercourses. If risk of water pollution occurs, notify appropriate authorities.
Special protective equipment for firefighters	Wear positive-pressure self-contained breathing apparatus (SCBA) and appropriate protective clothing. Firefighter's clothing conforming to Australia/New Zealand Standards AS/NZS 4967 (for clothing) AS/NZS 1801 (for helmets), AS/NZS 4821 (for protective boots), AS/NZS 1801 (for protective gloves) will provide a basic level of protection for chemical incidents.
SECTION 6: Accidental release	e measures
Personal precautions, protection	ve equipment and emergency procedures
Personal precautions	Wear protective clothing as described in Section 8 of this safety data sheet. No action shall be taken without appropriate training or involving any personal risk.
Environmental precautions	
Environmental precautions	Avoid discharge into drains or watercourses or onto the ground. Avoid discharge to the aquatic environment.
Methods and material for conta	ainment and cleaning up
Methods for cleaning up	Wear protective clothing as described in Section 8 of this safety data sheet. Clear up spills immediately and dispose of waste safely. Collect spillage with a shovel and broom, or similar and reuse, if possible. Collect and place in suitable waste disposal containers and seal securely. Wash thoroughly after dealing with a spillage. Dangerous for the environment. Do not empty into drains. For waste disposal, see Section 13.
Reference to other sections	
Reference to other sections	For personal protection, see Section 8. See Section 11 for additional information on health hazards. See Section 12 for additional information on ecological hazards. For waste disposal, see Section 13.
SECTION 7: Handling and sto	rage, including how the chemical may be safely used
Precautions for safe handling	
Usage precautions	Wear protective clothing as described in Section 8 of this safety data sheet. Keep away from food, drink and animal feeding stuffs. Keep container tightly sealed when not in use. Avoid discharge to the aquatic environment. Do not handle until all safety precautions have been read and understood. Do not handle broken packages without protective equipment. Do not reuse empty containers.
Advice on general occupational hygiene	Wash promptly if skin becomes contaminated. Take off contaminated clothing and wash before reuse. Wash contaminated clothing before reuse.
Conditions for safe storage, in	cluding any incompatibilities
Storage precautions	Keep out of reach of children, unauthorised persons and animals. Store in the closed, original container in a dry, cool, well-ventilated area, away from direct sunlight
Specific end use(s)	
Specific end use(s)	The identified uses for this product are detailed in Section 1
SECTION 8: Exposure control	s and personal protection
Control parameters	

#### Exposure controls

#### Protective equipment

#### SECTION 9: Physical and chemical properties

Information on basic physical and chemical properties		
Appearance	White beads in plastic cartridge	
Colour	White.	
Odour	Odourless.	
Partition coefficient	Kow: = 5.74	
SECTION 10: Stability and reactivity		

Reactivity	There are no known reactivity hazards associated with this product.
Stability	Stable at normal ambient temperatures and when used as recommended. Stable under the prescribed storage conditions.
Possibility of hazardous reactions	No potentially hazardous reactions known.
Conditions to avoid	There are no known conditions that are likely to result in a hazardous situation.

Materials to avoid	No specific material or group of materials is likely to react with the product to produce a hazardous situation.
Hazardous decomposition products	Does not decompose when used and stored as recommended. Thermal decomposition or combustion products may include the following substances: Harmful gases or vapours.
SECTION 11: Toxicological int	formation
Information on toxicological ef	fects
Acute toxicity - oral Notes (oral LD₅o)	LD₅₀ >2,000 mg/kg, , Rat
Acute toxicity - dermal Notes (dermal LD <sub>50</sub> )	LD₅₀ >2,000 mg/kg, , Rat
Acute toxicity - inhalation Notes (inhalation LC <sub>50</sub> )	Based on available data the classification criteria are not met.
Skin corrosion/irritation Animal data	Based on available data the classification criteria are not met.
Serious eye damage/irritation Serious eye damage/irritation	Based on available data the classification criteria are not met.
Respiratory sensitisation Respiratory sensitisation	Based on available data the classification criteria are not met.
Skin sensitisation Skin sensitisation	Based on available data the classification criteria are not met.
Germ cell mutagenicity Genotoxicity - in vitro	Based on available data the classification criteria are not met.
Carcinogenicity Carcinogenicity	Based on available data the classification criteria are not met.
IARC carcinogenicity	None of the ingredients are listed or exempt.
Reproductive toxicity Reproductive toxicity - fertility	Based on available data the classification criteria are not met.
Reproductive toxicity - development	Based on available data the classification criteria are not met.
Specific target organ toxicity -	single exposure
STOT - single exposure	Not classified as a specific target organ toxicant after a single exposure.
Specific target organ toxicity -	
STOT - repeated exposure	Not classified as a specific target organ toxicant after repeated exposure.
Aspiration hazard Aspiration hazard	Not relevant. Solid.
General information	The severity of the symptoms described will vary dependent on the concentration and the length of exposure.
Inhalation	No specific symptoms known.
Ingestion	No specific symptoms known.

Skin Contact	Prolonged contact may cause dryness of the skin.	
Eye contact	No specific symptoms known.	
Route of entry	Ingestion Inhalation Skin and/or eye contact	
Target Organs	No specific target organs known.	
SECTION 12: Ecological Inform	mation	
Ecotoxicity	Data for active constituent	
Toxicity	Aquatic Acute 1 - H400 Very toxic to aquatic life.	
Acute toxicity - fish	LC₅₀, 48 hours: >10 mg/l, Oryzias latipes (Red killifish)	
Acute toxicity - aquatic invertebrates	EC₅₀, 48 hours: 52.6 µg/L, Daphnia magna	
Persistence and degradability		
Persistence and degradability	The degradability of the product is not known.	
Bioaccumulative potential		
Bioaccumulative Potential	No data available on bioaccumulation.	
Partition coefficient	Kow: = 5.74	
Mobility in soil		
Mobility	No data available.	
Results of PBT and vPvB asse	essment	
Other adverse effects		
Other adverse effects	None known.	
SECTION 13: Disposal consid	erations	
Waste treatment methods	The generation of waste should be minimised or avoided wherever possible	
General information	The generation of waste should be minimised or avoided wherever possible.	
General information Disposal methods	Dispose of unused bait or used bait stations by wrapping with paper and putting in garbage.	
General information	Dispose of unused bait or used bait stations by wrapping with paper and putting in garbage.	
General information Disposal methods	Dispose of unused bait or used bait stations by wrapping with paper and putting in garbage.	
General information Disposal methods SECTION 14: Transport inform	Dispose of unused bait or used bait stations by wrapping with paper and putting in garbage.	
General information Disposal methods SECTION 14: Transport inform General <u>UN number</u>	Dispose of unused bait or used bait stations by wrapping with paper and putting in garbage.	
General information Disposal methods SECTION 14: Transport inform General <u>UN number</u> 3077 <u>UN proper shipping name</u>	Dispose of unused bait or used bait stations by wrapping with paper and putting in garbage.	
General information Disposal methods SECTION 14: Transport inform General <u>UN number</u> 3077 <u>UN proper shipping name</u>	Dispose of unused bait or used bait stations by wrapping with paper and putting in garbage.  nation Not a dangerous good according to ADG code 7	
General information Disposal methods SECTION 14: Transport inform General <u>UN number</u> 3077 <u>UN proper shipping name</u> ENVIRONMENTALLY HAZAR Transport hazard class(es)	Dispose of unused bait or used bait stations by wrapping with paper and putting in garbage.  nation Not a dangerous good according to ADG code 7	
General information Disposal methods SECTION 14: Transport inform General <u>UN number</u> 3077 <u>UN proper shipping name</u> ENVIRONMENTALLY HAZAR <u>Transport hazard class(es)</u> 9	Dispose of unused bait or used bait stations by wrapping with paper and putting in garbage.  nation Not a dangerous good according to ADG code 7	

#### Special precautions for user

#### SECTION 15: Regulatory information

#### Safety, health and environmental regulations/legislation specific for the substance or mixture

#### Inventories

Australia - AICS

#### Not applicable

#### SECTION 16: Any other relevant information

Training advice	Only trained personnel should use this material.
Revision date	16/11/2016
Revision	1
SDS No.	4538
Hazard statements in full	H400 Very toxic to aquatic life.
